Examiner's Reasons for Allowance

1. Examiner has considered Appellant's response (Appeal Brief) dated 05/08/2006 and after further review of Appellant's comments regarding claims 1 – 14, Examiner is withdrawing the Final rejection and placing claims in condition for allowance.

The following is an Examiner's statement of reasons for allowance, as pointed out by Appellant on argument's section of his Appeal brief.

The prior art of record does not teach or fairly suggest at least:

"...methods which the class can carry out, said methods having an argument which is effective time, said method being at least relatively persistently stored in the database so that past and present values of the attribute are stored in the database, with an indication of the effective time of each version of the method, execution of said method with a particular time argument utilizing particular values of the attributes of the effected data objects and the particular version of the method in effect for the particular time specified.", as best illustrated by figure 2 and in such a manner as recited in independent claims 1, 3, 4 and 7.

"...methods which the class can carry out, said methods having an argument which is effective time, execution of said method with a particular time argument utilizing the values of the attributes of the effected data objects in effect for the particular time specified.", as best illustrated by figure 2 and in such a manner as recited in independent claims 2 and 6.

Therefore, all claims, i.e. claims 1 – 14 are in condition for allowance. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
